Dear Dr. Kapil Goshami

The title mentioned above has been evaluated for inclusion in Scopus by the Content Selection & Advisory Board (CSAB). The review of this title is now complete and the CSAB has advised that the title will be **accepted** for inclusion in Scopus. For your information, the reviewer comments are copied below:

The journal has been improved since its previous evaluation and now marginally fulfills the criteria for inclusion in Scopus. The editors are advised to extend the editorial board with active members from the international scientific community and solicit articles by eminent researchers in the field, in order to improve its citedness of scientific impact. The performance of the journal will be monitored for re-evaluation in due course.

Our Source Collection Management department will contact the publisher of this title within the next three months to initiate the indexing process for Scopus. A content coverage agreement needs to be in place before we can start adding the content to scopus.com. If you are the publisher, please do not send us your content yet unless requested by our Source Collection Management department.

Yours sincerely,

Scopus Title Evaluation Support
